

Nguyễn Thành Long Fullstack developer

0975907414

nguyenthanhlong1210 2004vp@gmail.com

Thạch Hòa, Thạch Thất, Hà Nội

Aspiring Software Engineer with a strong focus on backend development and cloud technologies. Eager to apply skills in creating efficient, scalable backend solutions and contribute to innovative projects in a dynamic environment

Education

FPT UNIVERSITY 2022 - Present

Bachelor of Software Engineering

ع

Technical Skills

Languages TypeScript, Java, C#, Dart, Node.js, React

Databases MySQL, SQL Server, MongoDB, Redis, Firestore

Frameworks Next.js, Express.js, NestJS, Flutter, Firebase, .NET, MQTT, Kafka, Docker

& Tools

CI/CD GitHub Actions, GitLab Pipelines

Work experience

ROGO SOLUTIONS 3/2024 - Present

Backend Developer

- Developed and maintained OpenAPI REST services to ensure efficient communication between systems.
- Implemented MQTT and Kafka services for real-time data transmission and messaging.
- Worked on IoT-related projects, handling data encoding and decoding processes.
- Collaborated with cross-functional teams to deliver scalable backend solutions.

А

Projects

QUIZ PRACTICE SYSTEM (https://github.com/dadadadas111/SWP-project)

7/2024 - 9/2024

Fullstack Developer

Tech Stack: Java Servlet, JSP, SQL Server

- Developed a comprehensive quiz system using Java Servlets, handling both frontend and backend components.
- Collaborated with team members to implement efficient solutions for user management, quiz creation, anddata persistence.

Frontend Developer

Tech Stack: Next.js, .NET, SQL Server

- Built a user-friendly interface to facilitate court selection, class/club joining, and event creation for pickleball enthusiasts.
- Utilized modern frontend frameworks to deliver a responsive and interactive user experience.

+

Additional information

Languages: Fluent in Vietnamese, proficient in English.

Interests: Cloud technologies, backend architecture, IoT systems, AI technology.
